

TAP TO DONATE

The tap to donate feature allows you to accept donations by card payment with a simple tap right from your phone

- Simply download the iDonate Tap app from the Apple App store or Google Play store
- Sign in to your iDonate fundraising page and click 'Accept tap donation' at the bottom
- From here you simply enter the amount to be donated, hold the card to your phone and you're set! (you may need to move the card around a bit, try on top of and below the phone if you're having difficulty!)
- Receipts can be sent from the app to an email address - this will be prompted after the donation, donors can also leave a comment with their donation via the prompt in their receipt email

That's it! This is a completely safe and secure payment method, supported by Stripe. All donations will be shown on your fundraising page and go directly to Jigsaw. Happy tapping!
