

TOP TIPS FOR FUNDRAISING!

1. Share your fundraising page on socials - I've included some pre made graphics in the downloads hub, but feel free to create your own, a personal picture or video is a brilliant way to grab attention

2. Tag @jigsawymh so we can boost your post too - make sure your account is public so we can see it and interact!

3. Be the first to donate - making a small donation yourself will get the ball rolling, making people more likely to donate

4. Utilise your communities - maybe it's bringing your sponsorship card into your workplace canteen or sending the donation link into your GAA team's group chat
